

## Partner Program Introduction

### What is ONSIM?

**ONSIM is the world's first mobile network built exclusively for businesses. Unlike regular mobile networks, we offer powerful business-grade features that go far beyond standard mobile services.**

With ONSIM, you get the best of an office phone system—on a SIM or eSIM, without relying on unreliable VoIP apps or call diverts. Our standout feature lets you **display a UK landline number as your caller ID across multiple mobiles**, ensuring a professional presence from anywhere.

Powered by EE's award-winning network, our own cutting-edge platform and top-tier UK based support, ONSIM delivers seamless, reliable, and business-focused mobile connectivity.

Once you experience ONSIM, you'll never use a consumer network for your business again!

### What's in it for you?

At ONSIM, we believe in rewarding those who help spread the word about our innovative mobile solutions.

Spread the word about ONSIM and earn 10% of every £1 your referrals spend—for the lifetime of their subscription.

No hidden fees, no complex tiers—just straightforward, recurring passive income for helping businesses switch to a smarter mobile network.

**Earn 10% of  
your referrals  
spend for life**

### How to get Started:

- 1 Sign up:** Join our Referral Program through our easy registration process.
- 2 Share Your Link:** Receive a unique referral link to share with your network or through your digital platforms.
- 3 Earn Commissions:** Watch as you start earning 10% from every referred customer

### No experience? No problem:

Whether you're an influencer, digital marketer or just have a strong network of contacts, our program is open to anyone ready to start earning.
